Phoenix

Community Engagement Assessment

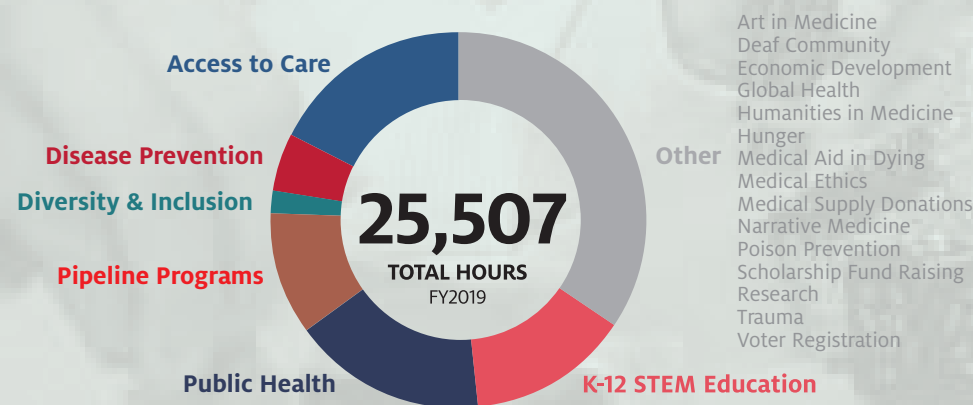

REPORT

2019

NUMBER OF PROJECTS BY FOCUS AREAS

TOTAL HOURS BY FOCUS AREAS

Dear College Community and Friends,

The University of Arizona College of Medicine – Phoenix is steadfast in our commitment to embrace the four pillars of our strategic plan: elevate the value and distinction of our medical education, enhance the translation of research to benefit patients, build outstanding clinical programs and work collaboratively to advance the health and well-being of our communities.

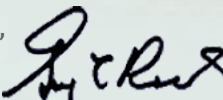

Central to the fourth pillar is supporting programs that allow us to serve the metro Phoenix community where we live, work and raise our families.

A year ago, we asked our faculty, students and staff to tell us how they interact with the community in the name of the UArizona College of Medicine – Phoenix. This report documents the incredible work that demonstrates our medical school's unwavering commitment to improving our community's health. **We served an astonishing 25,507 hours in 118 projects.** I am proud to say many projects fostered inclusion and collaboration with groups that often are ignored.

We helped underserved communities gain access to quality health care, prevented disease by volunteering with programs that engaged and empowered individuals to choose healthy behaviors, supported reducing health disparities by dedicating our institution to diversity and inclusion, encouraged a diverse workforce through our pipeline programs, sponsored awareness events about health issues that affect everyone and offered a free event that introduced thousands of children and families to the wonders of a STEM education.

The generosity displayed by our UArizona College of Medicine – Phoenix family through this Community Engagement Assessment has humbled me. I am grateful for the hard work and dedication that is told through the hours that have been volunteered.

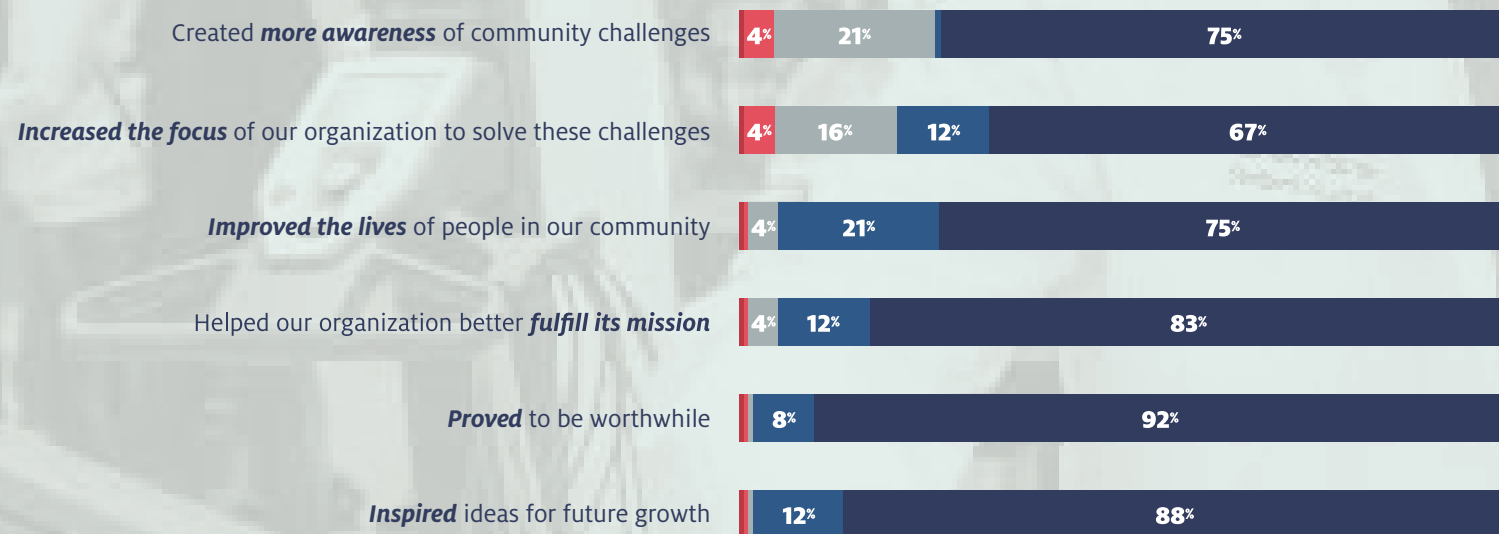

I can think of no higher calling than committing to serve our community. I am thrilled that you agree.

Sincerely, 

Guy L. Reed, MD, MS
Dean

COMMUNITY PARTNERS MEASURE OUR IMPACT

OUR PARTNERSHIP WITH THE COLLEGE HAS:

- 6 Access To Care
- 8 Disease Prevention
- 10 Diversity & Inclusion
- 12 Pipeline Programs
- 14 Public Health
- 16 K-12 STEM Education
- 20 Other
- 22 Partnerships

ACCESS TO CARE

Access to comprehensive, quality health care services is important for promoting and maintaining health, preventing and managing disease, reducing unnecessary disability and premature death, and achieving health equity for all Arizonans.

4,494 **20**
TOTAL HOURS **PROJECTS**

Wesley Clinic

Wesley Community & Health Center is a Federally Qualified Health Center that serves downtown Phoenix, where most are medically underserved and may not otherwise have access to care.

Wesley is unique in that it includes an on-site community center complete with resources for patients, after school programming and disease prevention workshops led by medical students.

BRIEFING

Provides respectful and effective patient care to those underserved populations based on cultural, financial or social influences.

GOALS

Allows medical students to practice and gain skills:

- History taking
- Physical examinations
- Laboratory work
- Diagnostic testing
- Medical documentation

“Serving at Wesley makes me feel not only useful in that moment, but I now see how my whole career could unfold in helping people by advocating for what they need.”

ALEX MEILECH, MS2

114 **456**
MEDICAL STUDENTS SERVING AT WESLEY **TOTAL STUDENT HOURS**

Camden Hotspotting

Students form interprofessional teams to work with patients with complex needs in the community experiencing extremely high rates of repeated hospitalizations and emergency department visits.

Phoenix Cancer Support Network

Serving cancer patients by providing support, guidance and direction while promoting and protecting the unique needs, lifestyle and abilities of each patient and their caregivers.

Project ECHO

Delivering access to treatment for Hepatitis C to persons in rural areas and the underserved within Arizona, along with supporting rural-based primary care providers.

Ability 360 Fair

Connecting disabled people with vendors and representatives from companies and agencies from across the Valley.

American College of Radiology

Empowering members to advance the practice, science and profession of radiological care.

Arizona Spinal Cord Injury Assoc. Farmers Market

Annual event benefiting the AZ Spinal Cord Injury Association to raise awareness and provide resources.

AZDHS Task Force on Preventing Prenatal Exposure to Alcohol and Other Drugs

Improving the health of Arizona families with solutions to reduce prenatal exposure to alcohol and other drugs.

Crews N’ Health Mobile

Serving homeless and at-risk children by providing medical care in multiple locations throughout Phoenix.

Juntos Por La Salud

Outreach services to the under and uninsured Latino population in Maricopa and Pima County.

Health Life

Addressing the prevention and complications of diabetes through acculturated programming and peer support. The program delivers health care to the underserved and undocumented Hispanic population.

St. Vincent de Paul Clinic for the Homeless

Providing health care ranging from the treatment of acute illnesses to chronic diseases, the clinic is staffed with volunteer physicians, nurses and other medical professionals.

Vitalyst Health Foundation

Contributing to a healthy community where opportunity exists to make healthy choices, in environments that are safe, free from violence and designed to advance health.

Project SHARE

Addressing community’s ability to access care through AHCCCS and ACA health insurance plans.

Refugee Women’s Health Clinic

Focusing on the reproductive health disparities among refugee women. Allows for informed decision making.

SHOW Clinic

Tri-university, student-run initiative dedicated to serving vulnerable populations with access to free health care.

Society of Skeletal Radiology

Encouraging and supporting the development of expertise in the subspecialty of Musculoskeletal Radiology.

Sports Medicine Interest Group

Assisting local physicians in providing free high school physical examinations involved in athletics.

St. Vincent de Paul Eye Clinic

Identifying and treating eye disease to underserved and uninsured working poor by providing free eye exams.

The Neighborhood Christian Clinic

Delivering holistic care to underserved populations.

DISEASE PREVENTION

Disease prevention programs focusing on keeping Arizona healthy by engaging and empowering individuals and communities to choose healthy behaviors and make changes that reduce the risk of developing chronic diseases.

9
PROJECTS

Students Supporting Brain Tumor Research

Medical students learn about brain tumors and gain real world experience in running a non-profit business while raising funds for brain tumor research. Beneficiaries of the money are Barrow Neurological Institute, National Brain Tumor Society, Phoenix Children's Hospital, Translational Genomics Research Institute and University of Arizona.

ACT Kids Health Fairs

Improving the health and education of low-income children by helping provide for their healthy future.

Arizonans Concerned About Smoking

Educating youth about the dangers and consequences of e-cigarettes, vaping and use of tobacco products.

Healthy Habits at Wildfire Elementary

Instructing children about healthy eating and exercise habits. Encouraging them to discuss with their families.

Hope Fest

Medical students joined hundreds of volunteers to help people connect with health care resources.

National Kidney Foundation

Kidney disease awareness, education and research aimed a low-income populations.

Native Health

Culturally sensitive medical care to Native Americans living in the Valley.

Wesley Wellness

Health education classes and nutrition counseling to the patients at Wesley Health Centers.

Red Dress Cocktail Party

Heart disease is the #1 killer of women in the United States. The annual event (<https://phoenixmed.arizona.edu/11th-annual-reddress>) organized by the College raises funds to improve women's heart health and disease prevention by educating women about heart disease risk factors and drawing attention to the higher risk of heart disease among minorities. The event promotes an online women's heart health empowerment video series (phoenixmed.arizona.edu/hearttoheart).

SUPPORT STAFF PARTICIPATING

724
TOTAL HOURS

11
YEARS OF EVENT

85%
ATTENDEES IMPACTED BY HEART DISEASE

"Over 80% of heart disease is preventable, but we need to help women understand what puts them at risk. There are unique risk factors that only affect women but aren't always discussed with them."

MARTHA GULATI, MD, MS

DIVERSITY & INCLUSION

Understanding the complexities of diversity, inclusion and cultural competency are important in delivering high-quality patient care, leading to more positive patient outcomes and a further reduction in health disparities.

471 TOTAL HOURS
12 PROJECTS

Inclusive Excellence Speaker Series

The Inclusive Excellent Speaker Series brings fresh perspective voices, who share stories that are not being told or not being told enough. This is an opportunity for our medical students, faculty, staff, residents, post-docs/fellows and community to meet and interact with dynamic speakers, such as Oluwaferanmi Okanlami, MD, MS, assistant professor of Family Medicine and Physical Medicine & Rehabilitation at the University of Michigan. (phoenixmed.arizona.edu/diversity)

“Every action, every decision, every instance in someone’s life sets off a ripple effect in ways that you can’t really tell the downstream consequences of one specific event.”

OLUWAFERANMI OKANLAMI, MD, MS

Arizona Martin Luther King Walk

Celebrating and recognizing the achievements and contributions of Dr. Martin Luther King, Jr. while promoting cultural diversity, awareness and unity.

Phoenix Pride Festivities

Showing support for the LGBTQ+ community by encouraging allyship and advocacy through education focused on health disparities and sexual health.

Phoenix Biomedical Campus Open Mic Night

Providing a platform for UA and NAU students, along with the local community, to share their experience of their bodies through art, language and music.

Transgender Summit by Arizona Community Foundation and Unify Sedona

Led panel discussion entitled Building Healthier Communities at Arizona’s first-ever Transgender Summit designed to encourage transgender people to live without limits.

American Association for Women in Radiology

Providing a forum for issues unique to women in radiology, radiation oncology and related professions.

Fellowship and Mentoring

Allows students to meet with physicians with similar backgrounds and discuss career challenges.

Cameroon-Arizona Partnership

Eliminating preventable maternal and early neonatal mortality by training and retaining Cameroon physicians.

Foundation for Blind Children

Working with visually impaired and blind children to develop skills for participating in sports and arts.

Diversity and Inclusion Brown Bag Series

Addressing current issues in the medical community for the College as well as diversity and inclusion groups.

Special Olympics

Helping intellectual and developmental impaired youth in need of pre-participation physicals.

Diversity Leadership Alliance

Diversity training, leadership guidance and continued support to help cultivate an inclusive community.

PIPELINE PROGRAMS

Promoting and achieving a diverse workforce that represents the diversity of patients ensures health equity and is a proven solution to addressing the need to promote a culturally competent and prepared health care and biomedical research workforce.

2,720 **7**
TOTAL HOURS PROJECTS

Building the Next Generation of Academic Physicians

Leaders in national effort to educate underserved populations interested in academic medicine careers.

Campus Tours

Showcasing the Phoenix Biomedical Campus to various stakeholders, community leaders and prospective students.

Mobile Medical School

Exposing elementary and middle school students in underserved areas to careers in medicine.

Preparing to Apply Workshop

Offering students who don't have access to pre-med advising the opportunity to take advantage of our medical school community.

Pre-Medical Academy

Helping the underrepresented population in medicine navigate and understand the path and process to medical school.

Saturday Scrubs

Engaging underserved and underrepresented in medicine on the path to medical school and becoming a physician.

Summer Scrubs

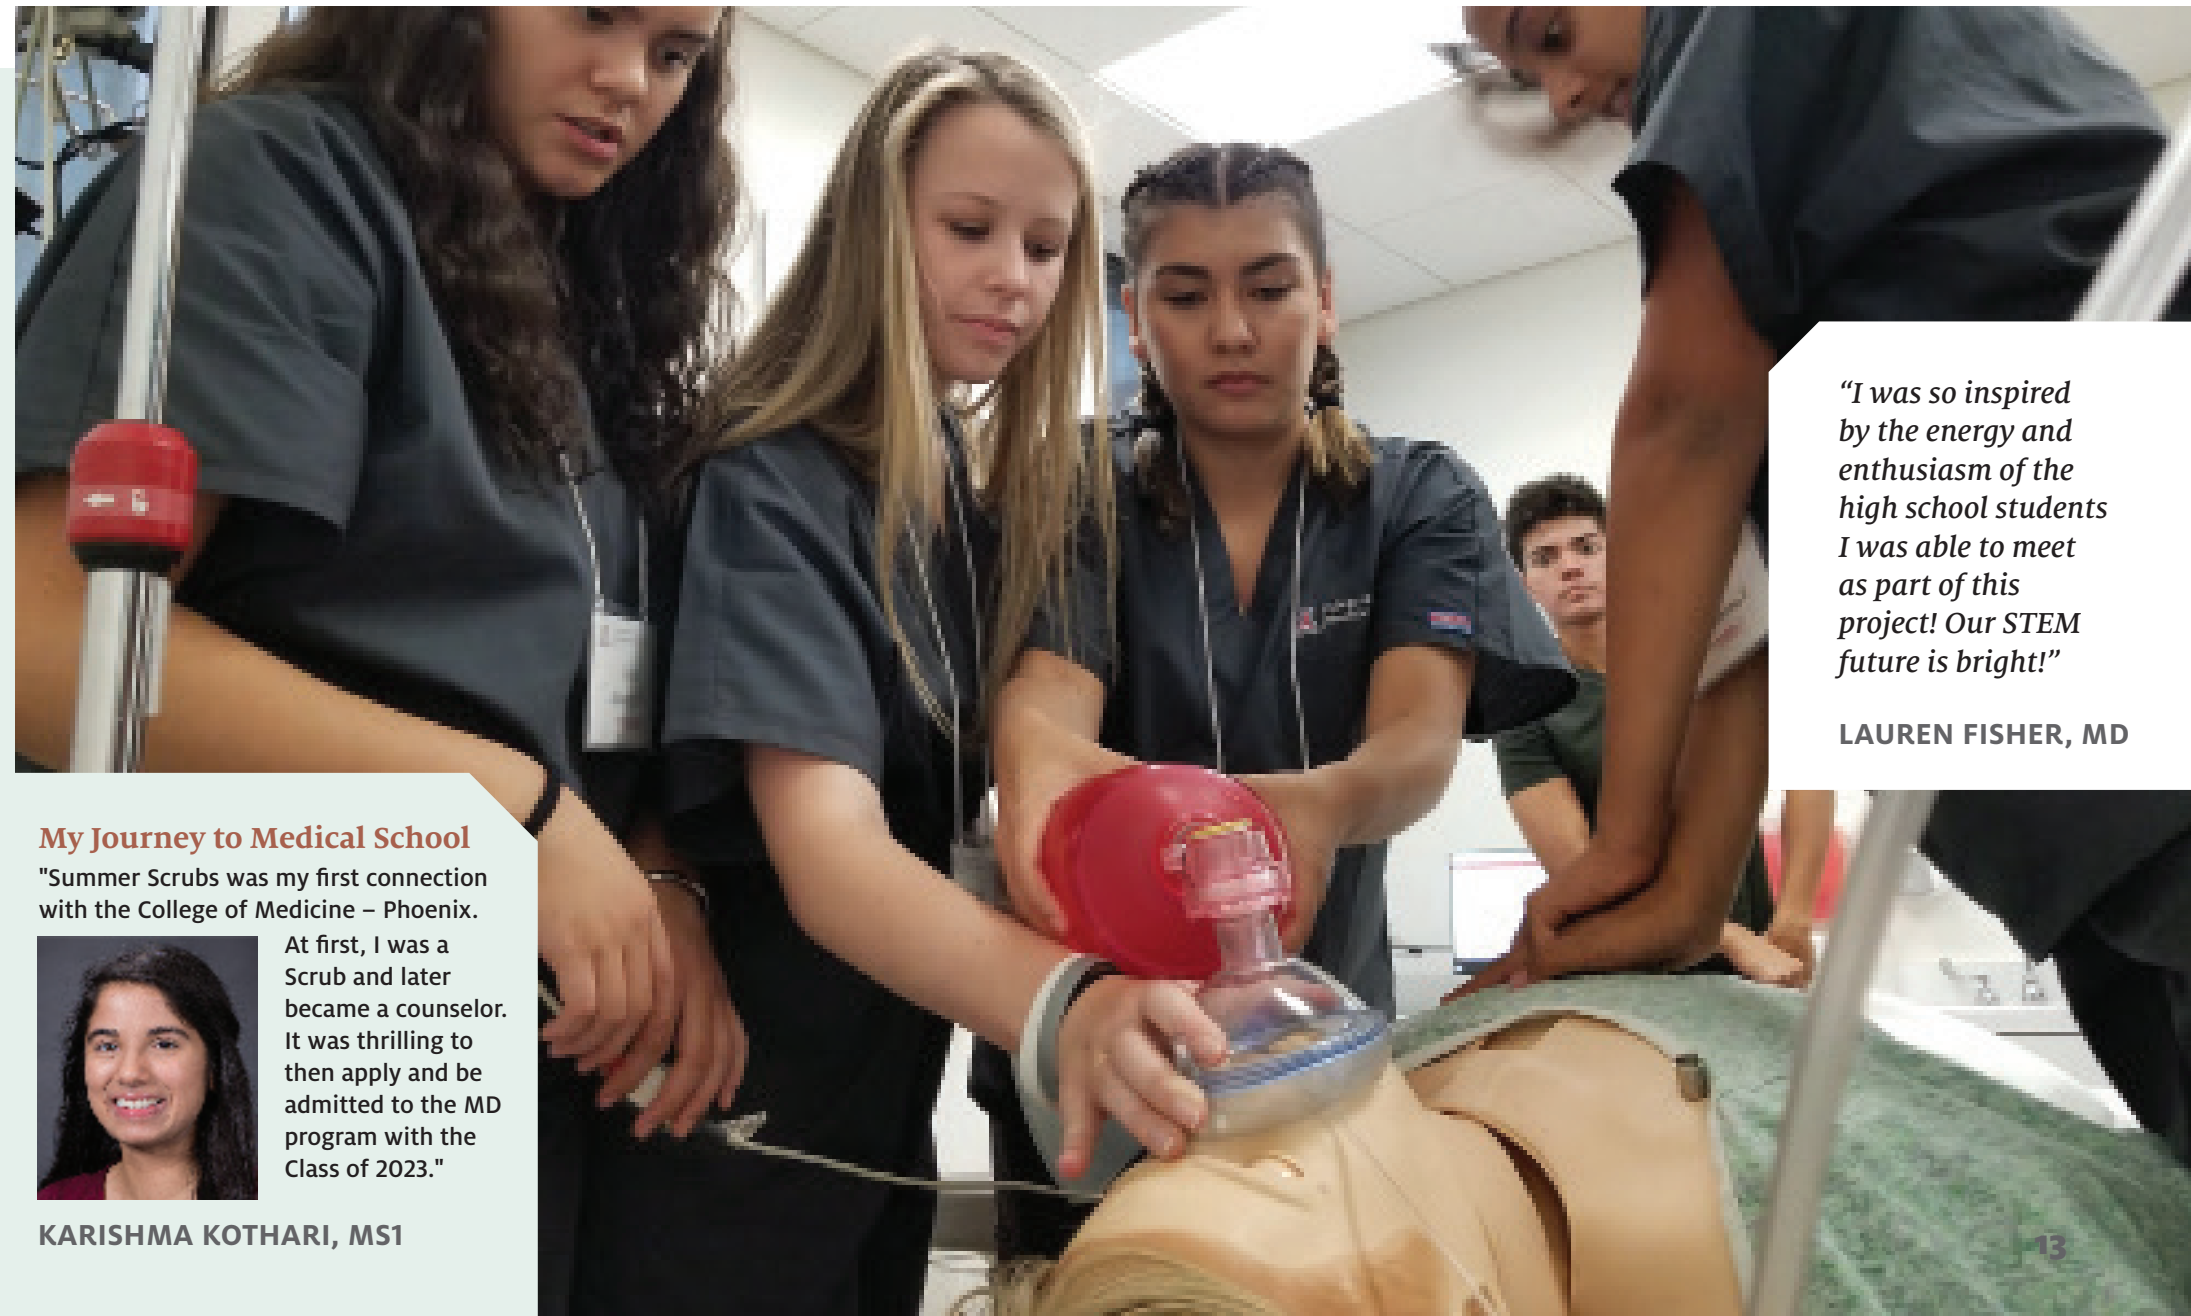

A health career exploration program helping high school students prepare for their future in the health professions. This pipeline program allows students to attend professional lectures, take health-related field trips and participate in hands-on lab experiences. (phoenixmed.arizona.edu/scrubs)

APPLICANT ACCEPTANCE CONSIDERATIONS:

- Socioeconomically disadvantaged
- First-generation college attendee
- From rural Arizona
- Member of federally recognized American Indian Tribe

PROJECTS

U.S. Surgeon General Visits College, Addresses Country's Most Pressing Health Issues

The United States Surgeon General Vice Admiral Jerome M. Adams, MD, MPH, visited the University of Arizona College of Medicine – Phoenix on February 13, 2019 to deliver a message about the priorities of his office and the state of the nation's health. The Surgeon General participated in Grand Rounds hosted by the Arizona Department of Health Services and the College.

In a wide-ranging call to action, Dr. Adams encouraged physicians to use their voices to help businesses, politicians and voters understand that investing in health is essential to the economic health of their community.

He also prompted them to address physician burnout, become certified to carry the overdose-reversing drug naloxone and work to dispel stigmas associated with mental health, addiction and access to care.

TAKEAWAYS

- 2.1 million people are struggling with opioid use disorder
- One in 20 middle school students and one in five high schoolers used e-cigarettes
- Seven out of 10 18-25 year olds are ineligible for military service
- Today's marijuana extracts contain more than 50 percent THC

Campus Wellness Market

The College hosts a monthly, on-site market for students, faculty, staff and residents to learn and discover holistic ways to be healthy. Health care professionals offers free health screenings and disease prevention education, yoga and more.

Harm Reduction Alliance

Reducing harm associated with opiate and other drug use through the distribution of Naloxone kits.

Arizona Department of Health Service

Improving maternal health and reducing maternal morbidity and mortality.

BMS Seminar Series

Updating practitioners on recent research to create awareness and "best practices."

CACTIS Foundation

Identifying interventions for traumatic brain injury in the context of domestic violence.

New Hope Teen Pregnancy Program

Engaging teens in dialogue about responsible pregnancy, childbirth and postpartum care decision making.

Physicians For Social Responsibility Arizona

Focusing on what health professionals cannot cure: nuclear weapons, climate change and renewable energies.

Living Library Event

Recognizing diversity and interprofessionalism in patient care through storytelling.

Poison Control Center

Providing advice and education to medical professionals and the general public.

Public Information Seminars on Obesity

Educating the public on the science that exists about obesity and how that relates to medical and surgical treatment.

Rent Film and Medicine Community Engagement Event

Bringing together the community to raise awareness for prevention and care of HIV and AIDS.

Substance Exposed Neonates Task Force

Creating and implementing data-driven, evidence-informed solutions to reduce prenatal exposure to drugs and alcohol.

The Pathway Scholars Legacy Project

Designing and distributing a medical journal and resource booklet for the homeless.

K-12 STEM EDUCATION

In an ever-changing, increasingly complex world, it's more important than ever our nation's youth are prepared to bring knowledge and skills to solve problems, make sense of information and know how to gather and evaluate evidence to make decisions.

3,562

TOTAL HOURS

14

PROJECTS

Wildcat Night at Verde Park

Medical students visit the park to teach hands-on topics like how the heart works, the importance of good nutrition, chest compression-only CPR and the dangers of smoking to local children from preschool age up to high school each month.

American Board of Radiology

Protecting the public in certifying doctor's education and professional requirements.

Arizona Science Center

Teaching students lab skills involving DNA extraction, gene transformation and protein purification.

Arizona SciTech Festival

Showcasing STEM-related education and career opportunities to Arizona's youth.

Connect2STEM Awards

Awarding organizations who hosted and/or participated in STEM-related events.

Esperanza Middle School

Partnering with a primary school in an underserved community to provide STEM education.

Jurutka Research Laboratory

Increasing the access to STEM research for underserved populations.

Life Saving skills

Identifying interventions for traumatic brain injury in the context of domestic violence.

Point of Care Ultrasound Course

Training community medical professionals on ultrasound technology to advance patient care.

St. John Bosco School

Discussing and creating fine works of art to promote art literacy in fifth-grade students.

Student Health Outreach Program

Focusing on reaching out to the high-school students and encouraging health-related careers.

SySTEM School Mini Medical School

Engaging students in STEM education, promoting health literacy and improving school achievement.

Teen Mobile Units STEM Outreach

Encouraging 6th-8th graders from diverse backgrounds to pursue future careers in STEM/medicine.

Connect2STEM

The University of Arizona College of Medicine – Phoenix hosted its signature STEM event, Connect2STEM, on January 26, 2019. The family-friendly fun day of learning and discovery encourages youth of all ages to experience the wonder of Science, Technology, Engineering, Math and Medicine in downtown Phoenix.

Connect2STEM is the largest STEM outreach event in Phoenix. The 5th annual event set a new attendance record of 9,000 guests. Over 180 activities led by professionals in the field allow children to engage in hands-on learning and to see themselves in a STEM-related career. (phoenixmed.arizona.edu/c2s)

"Nothing represents an investment in STEM and an investment in the future of Arizona than right here at the Biomedical Campus in the heart of downtown Phoenix."

OTHER

Volunteering offers vital help to people in need, worthwhile causes and the community, but the benefits can be even greater for you, the volunteer. The right match can help you to find friends, connect with the community, learn new skills and even advance your career.

8,761
TOTAL HOURS

41
PROJECTS

ADHS Pain and Addiction Curriculum

Responding to a state-wide public health emergency, a curriculum is being developed to combat the opioid epidemic.

Adult Congenital Heart Association

Improving and extending the lives of the those born with heart defects through education, advocacy and research.

American Liver Foundation

Serving the underserved and continuing patient advocacy for those suffering from liver disease.

Arizona Cord Blood Conference

Conference featuring experts in the field of cord blood clinical practice, research and education.

Arizona Medical Association Ethics

Evaluating a recent legislation allowing physicians to participate in ending a consenting patient's life.

Arizona Radiological Society

Advancing the science of radiology through professional education and improving patient care.

American Society for Bioethics and Humanities

ASBH ethics committee brings medical ethics to the bedside with yearly conferences, newsletters, research and publications.

Banner Poison & Drug Information Center

Preventing and treating poison-related illnesses by optimizing patient care, conducting research and delivering education.

Bending the ARC Film & Medicine Event

Raising money for students to go to Dominican Republic.

Buffmire Lecture Series

Bringing leading medical practitioners and thinkers to bridge the gap between the academic and practice communities.

ChArt Journal Celebration and Gallery Event

Creating community around art and its effects on healing and wellness by showcasing local art.

Clarion Competition

Leading a case competition of interprofessional students focused on creating solutions to societal health issues.

Circle the City

Reducing homelessness, improving health to those in need and finding homeless people homes.

CyberMed Summit

Gathering stakeholders to begin the conversation about the challenges of medical device cybersecurity.

Downtown Phoenix Partnership, Inc.

Revitalizing and increasing economic development of downtown Phoenix.

Feed My Starving Children

Providing meals with a long shelf life to people in rural areas without access to adequate resources.

JCAHPO Technician Training Course

Training of ophthalmic technicians impacting the level of care delivered to the public.

Hands of Joy Sign Language Choir

Spreading the awareness of deafness and the love of sign language by a choir performing songs in sign language.

HonorHealth Military Partnership

Facilitating a hands-on airway laboratory for deploying military health professions and community first responders.

Hospice of the Valley

Providing comfort and dignity through terminal illness and end of life.

League of Women Voters

Advancing United Nations initiatives of healthy lives and promoting well-being for all.

Maricopa County Medical Society

Professional society advancing the medicine offering mentorship, advocacy and networking.

Maricopa County Stand Down for Veterans

Assisting veterans with homelessness.

Medical Student Mentoring Program

Connecting students from underprivileged backgrounds to experienced persons within the health care field.

Mini-Medical School

Connecting the College with the public by providing health-related topical lectures delivered from our faculty.

Narrative & Diversity Book Events

Bringing together community in shared discussion about books focused on health and well-being.

Pediatric Research in Sports Medicine

Disseminating information in the prevention, diagnosis, treatment and technical advances in sports medicine.

Poetry Reading Event

Creating community around poetry and humanities while fostering perspective taking and personal growth.

Project Cure

Providing donated medical supplies and equipment to developing countries around the world.

Rad-Aid International

Delivering radiology to low-resource areas by delivering education, equipment, infrastructure and support.

Research Symposium

Bringing together the Arizona research community and showcasing the College's campus and faculty.

Stories in Medicine Blog

Showcasing stories of health and wellness of our medical and Phoenix community.

Serving Those Who Served

Aims to educate medical students and physicians to the unique barriers facing our returning veterans.

Street Medicine Phoenix

Ensuring access to quality health care for Phoenix's homeless population living and sleeping on the streets.

The Cause of Sarcoidosis

Identifying and characterizing patients with sarcoidosis to determine the causes of disease.

The Story Project Podcast

Voicing awareness of diverse patient needs and the role of humanities in health and wellness.

Tourette Association of America

Building community, education and access to care by organizing meetings, fundraisers and support groups.

Trauma Sensitive Schools Symposium

Exploring sexual misconduct as trauma and how this trauma can affect K-12 students and their physical and mental health.

Wesley Tutoring

Tutoring children in elementary school (K-5th grade), helping with reading, writing and math skills.

Writer's Group

Encouraging the development of communication skills in writing for personal and professional growth.

University of Arizona East Valley Alumni Club

Developing an alumni community by promoting philanthropic activities and commitment to the University.

COMMUNITY PARTNERS' TESTIMONIALS

"UArizona College of Medicine – Phoenix, along with the MSN Nursing program and Street Medicine has significantly impacted HopeFest Phoenix for the past 5-6 years. Students and faculty volunteer in giving direct care, screenings and health care education. We continue to appreciate the willingness and energy of the Colleges programs to serve the community in this way."

CHARLOTTE THRALL
HopeFest Phoenix

"Our partnership with the University of Arizona College of Medicine – Phoenix is a wonderful collaboration that is helping the Diversity Leadership Alliance get a better understanding of the health care disparities that exist and how to help close that gap."

JOANNA DE'SHAY
Executive Director
Diversity Leadership Alliance

"Bringing community partners onto campus to share information vital to our local community provides our medical students with the opportunity to truly humanize medicine and see the communities that are being impacted by their decision to practice medicine. The human element of these seminars and the information they share with future doctors helps add another level of service to the delivery of medicine."

GABRIELA WOODY
Office of Diversity and Inclusion

"Allows medical students to be able to give back to their community in a way that is impactful for both parties. With this opportunity, medical students can practice their doctoring skills and also be able to provide care for people who need it. Our patients are able to have affordable and high quality health care in a community setting."

JUBRAN JUBRAN
UArizona College of Medicine – Phoenix Student
Wesley Clinic at Wesley Community Health Center

"Street Medicine Phoenix's partnership with the University of Arizona College of Medicine – Phoenix has enabled our organization to provide health care and hope to more than 1,000 individuals experiencing homelessness in Maricopa County. Without this partnership, we would not have the supplies nor the connections necessary to make this impact."

JUSTIN ZEIEN
UArizona College of Medicine – Phoenix Student
Street Medicine Phoenix

"Summer Scrubs is an amazing opportunity to open the eyes of our high school students to show them the different paths there are in health care and how they can directly affect the community they choose to live in through these professions."

CHIP YOUNG
Office of Admissions & Recruitment

"Health care practitioners, researchers, educators, medical and high school students, and the general public were given the opportunity to participate in the symposium and poster session to present their research and identify potential collaborations."

CASEY SAPIO
Research Office

THE UNIVERSITY
OF ARIZONA
