To ensure diversity and inclusion are embedded throughout the campus, the Office of Diversity and Inclusion (ODI) established the Diversity Liaisons program in the fall 2015. The volunteer inclusion liaisons serve as integral members of the ODI team in fostering an inclusive and welcoming campus climate. Liaisons offer feedback to the ODI on developing future programs, act as representative voices for staff, faculty and students on diversity and inclusion issues in their departments/units/fellow students and assist with ODI hosted events.

- Judith Apostolik, Financial Affairs
- Amy Boise, College of Nursing, Phoenix Biomedical Campus
