Student Testimonials
“I would definitely recommend more students to come to this camp. Why? Because this camp is not just a camp, it is an eye-opener to everyone, it was an eye-opener to me. I don’t look at hospital the same no more, not in a bad way but a very good way. This summer program help me learn about what life after college and about the medical field. So best camp I ever went to.”

“I enjoyed the lectures from the doctors of different specialties. My favorite thing overall were the simulations we did in the lab and the gross anatomy labs, because they were hands on and gave us a chance to practice and get a feel of what they were like.

“It was definitely an awesome experience and I gained a sense of security in my life plan going forth.”
