Section 2: Learning Objectives

A. Global Health Discovery Project (GHDP): A key component of the Global Health Certificate of Distinction is the production of a systematic review that should provide an exhaustive review of studies relevant to a specific medical question. This will validate or negate the central question posed by the systematic review while in an underprivileged country (element 5) either by observation, interviews, or data acquisition and analysis and will be required to do one of the following: 1. Implement a curriculum that includes a robust evaluation. 2. Develop a multi-media presentation, or an educational brochure with demonstrated impact. 3. Write a policy paper with demonstrated impact. Please indicate ideas discussed regarding the GHDP.

B. Specific Aims: Describe briefly your goals/ objectives for your Global Health Discovery Project (GHDP).

C. **Background and Significance:** Describe here the rationale for the activities and/or project (why is it important) and any relevant prior literature on the subject.

D. **Preliminary Work in the Area:** Describe here any past work you or your mentor(s) have performed in this area.

E. **Project Design and Methods:** Describe your activities and/or project, including design, setting/participants, and specific procedures. Explain your plan for development and implementation of your project.

F. **Project Evaluation:** Describe how you will assess the impact of the activities and project you will undertake. Please include an evaluation component for each activity/project.

G. **Project Timeline:** Describe the timeline for your activities and/or project development, implementation, and assessment.

H. **Literature Cited**

I. Funding: Will external funding be necessary for your project to be completed? If so, describe estimated costs and how you plan to fund the project.
