Nutrition

**Healthy fats are necessary to boost brain and heart health.**

What are EVOOs and MUFAs?

Healthy fats can be found in nuts and seeds as well as wild fish & Extra Virgin Olive Oil (EVOO). EVOO is high in Monounsaturated Fats (MUFAs). MUFAs are anti-inflammatory fats that can help make you lose weight by reducing blood sugar. Food sources of MUFAs include avocados, almonds and dark chocolate.

Food Education

Dr. Shad working with medical students. He says, “Despite the critical role that diet plays in the immune system and preventing chronic diseases and premature deaths, medical students in the United States only get an average of 19 hours of nutrition education across all four years of medical school.”

People & Profiles

**Shad Marvasti, MD MPH,** is the founding director of the Culinary Medicine Program and Public Health, Prevention and Health Promotion at the University of Arizona College of Medicine Phoenix. He believes poor diet is the number one cause of premature death worldwide, larger than tobacco, alcohol or drug use combined. He says, “That’s why we’re redesigning medical education to include food systems and culinary medicine!”

**Food is Medicine**

**“LET FOOD BE THY MEDICINE AND MEDICINE BE THY FOOD”**

- Hippocrates

The Mediterranean Diet is a great example of Food as Medicine. It is better than any medication at preventing heart attacks and strokes!
