

SBAR – AHA eBook Library

S – AHA requires all students have access to the AHA manuals prior to and during AHA classes.

B – There is an increased difficulty getting paper manuals from the facility for usage during class. Furthermore, decreased return of books following class results in a large monetary loss to Banner, increased workload for CCO and our libraries to oversee these book exchanges.

A – eBook Library is available for pre-study. Currently the books are accessible through a Banner IP address or from an external (home) computer. The link is <http://ahainst.ipublishcentral.com>. The external log in is **BannerHealth** and the password is **ahaebooks**. The manual can be accessed by clicking on the bookshelf and choosing the manual one wishes to read. eBooks are currently not able to be downloaded on Banner computers but can be downloaded to a home device. Once you chose the eBook you wish to read, it will start loading as you turn the pages. Please note that it seems to work much better in Goggle Chrome.

Paper manuals will be loaned to each student **upon entering** class for use during the course.

R – The eBook Library is available for all Banner employees to prepare for the courses. All students who wish to have a paper manual for study prior to class are encouraged to purchase their own copy of the 2020 book; any older publication date is not to be used for study.

Ordering either one's own eBook or paper manual can be done through <https://shopcpr.heart.org>.

From Home/Office computers, outside of Banner network:

[BLS ACLS PALS AHA eBooks for Banner Health](https://ahainst.ipublishcentral.com/bookshelf) <https://ahainst.ipublishcentral.com/bookshelf>

Use your "Login/Password" and then READ ONLINE.

You have an option to  and then save the book to your home computer.

- License does not permit printing the book. If you try to login/password a second time, you may still be logged in from before. (It will not take your password, if that is the case).

From Banner network computers:

Go directly to the book. Do Not Login/Password.
