

Chris Goettl, MD

Clinical Assistant Professor, Radiology
University of Arizona College of Medicine – Phoenix

Interventional Radiologist
Banner – University Medical Center Phoenix

Chris Goettl, MD, graduated from the University of Arizona College of Medicine – Phoenix in 2012, then completed a radiology residency at the University of Illinois in Chicago. Next he attended Stanford University where he completed an interventional radiology fellowship.

Along with Teresa Wu, MD, Director of Simulation Curriculum for the University of Arizona College of Medicine – Phoenix, Dr. Goettl secured a University of Arizona Provost Investment Fund Grant in 2019 to fund a Mentice interventional procedural simulator, which is now housed in the college's Center for Simulation and Innovation.

Dr. Goettl hopes to grow this simulation program over the next several years to improve medical student access to multi-disciplinary and cutting-edge interventional procedural training.
