

## Teresa Wu, MD, FACEP

**Director, Simulation Curriculum  
Associate Professor, Emergency Medicine,  
University of Arizona College of Medicine – Phoenix**

**Director, Point of Care Ultrasound Program and  
Fellowships, Banner – University Medical Center  
Phoenix**

**Chief Executive Officer  
SonoSupport.com**

Dr. Teresa Wu is a graduate of the Johns Hopkins School of Medicine and completed her emergency medicine residency at Stanford University. She was selected to complete both ultrasound and administrative/simulation fellowships at Stanford University. Over the last decade, she has been one of the most prominent driving forces in the development, creation and execution of our innovative, longitudinal simulation curriculum. She is currently the director of our Simulation Curriculum and the director of the Simulation Educators Program, where she oversees a four-year immersive simulation curriculum and manages a multidisciplinary team of clinicians and educators at the College of Medicine – Phoenix.

In addition, Dr. Wu also cares for patients as an emergency medicine physician and is the director of the Point-of-Care Ultrasound Program and Fellowships for Banner – University Medical Center Phoenix. Over her career, Dr. Wu has developed and directed multiple ultrasound and simulation fellowships across the country, served as an associate residency director for emergency medicine residency programs and has been invited as the honored keynote speaker for numerous international conferences and corporations. Dr. Wu's innovative research and publications have led to advances in medical simulation, education and point-of-care ultrasound. She has served as the guest editor for numerous publications worldwide. She is currently the director of Simulation for the American College of Emergency Physicians (ACEP). Dr. Wu is the CEO and president of SonoSupport. Her point-of-care ultrasound app and multidisciplinary, interprofessional ultrasound courses from [SonoSupport](#) have been used to develop ultrasound education and curricula throughout the world.
